**TARIFF FORMAT**

Sheet Numbering - Sheet numbers appear in the upper right hand corner of the page. Sheets are numbered sequentially and from time to time new pages may be added to the Tariff. When a new page is added between existing pages, a decimal is added to the preceding page number. For example, a new page added between Pages 3 and 4 would be numbered 3.1.

Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

2.  
2.1.  
2.1.1.  
2.1.1.A.  
2.1.1.A.1.  
2.1.1.A.1.(a).  
2.1.1.A.1.(a).I.  
2.1.1.A.1.(a).I.(i).  
2.1.1.A.1.(a).I.(i).(1).

Check Sheets - When a Tariff filing is made with the Commission, an updated check sheet accompanies the Tariff filing. The check sheet lists the pages contained in the Tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision, all revisions made in a given filing are designed by an asterisk (\*). There will be no other symbols used on this page if these are the only changes made to it. The Tariff user should refer to the latest check sheet to find out if a particular page is the most current on file with the Commission.

- 2.7.5. The Customer will be billed directly by the LEC for certain Dedicated Access arrangements selected by the Customer for the provisioning of direct access arrangements. Customers will be assessed a late fee on past due amounts in the amount not to exceed the maximum lawful rate under applicable state law. If a Customer presents an undue risk of nonpayment at any time, the Company may require that Customer to pay its bills within a specified number of days and to make such payments in cash or the equivalent of cash.
- 2.8.3. In determining whether a Customer presents an undue risk of nonpayment, the Company shall consider the following factors: (A) the Customer's payment history (if any) with the Company and its affiliates, (B) Customer's ability to demonstrate adequate ability to pay for the Service, (C) credit and related information provided by Customer, lawfully obtained from third parties or publicly available, and (D) information relating to Customer's management, owners and affiliates (if any).

- 2.8.5. If a LEC has established or establishes a Special Access surcharge, the Company will bill the surcharge beginning on the effective date of such surcharge for Special Access arrangements presently in Service. The Company will cease billing the Special Access surcharge upon receipt of an Exemption Certificate or if the surcharge is removed by the LEC.
- 2.8.6. In the event the Company incurs fees or expenses, including attorney's fees, in collecting, or attempting to collect, any charges owed the Company, the Customer will be liable to the Company for the payment of all such fees and expenses reasonably incurred.
- 2.8.7. Company will not require deposits or advance payments by Customers for Services.
- 2.9. Assignment

- 2.10.2. If at any future time a municipality acquires the legal right to impose an occupation tax, license tax, permit fee, franchise fee or other similar charge upon the Carrier, and imposes the same by ordinance or otherwise, such taxes, fees or charges shall be billed to the end users receiving service within the territorial limits of such municipality. Such billing shall allocate the tax, fee or charge among end users uniformly on the basis of each end user's monthly charges for the types of service made subject to such tax, fee or charge.

- 2.10.3. If at any future time a county or other local taxing authority acquires the legal right to impose an occupation tax, license tax, permit fee, franchise fee or other similar charge upon the Carrier, and imposes the same by ordinance or otherwise, such taxes, fees or charges shall be billed to the end users receiving service within the territorial limits of such county or other taxing authority. Such billing shall allocate the tax, fee or charge among end users uniformly on the basis of each end user's monthly charges for the types of service made subject to such tax, fee or charge.
- 2.10.4. When utility or telecommunications assessments, franchise fees, or privilege, license, occupational, excise, or other similar taxes or fees, based on interstate or intrastate receipts are imposed by certain taxing jurisdictions upon the Company or upon local exchange companies and passed on to the Company through or with interstate or intrastate access charges, the amounts of such taxes or fees will be billed to Customers in such a taxing jurisdiction on a prorated basis. The amount of charge that is prorated to each Customer's bill is determined by the interstate or intrastate telecommunications service provided to and billed to an end user/customer service location in such a taxing jurisdiction with the aggregate of such charges equal to the amount of the tax or fee imposed upon or passed on to the Company.
- 2.10.5. When any municipality, or other political subdivision, local agency of government, or department of public utilities imposes upon and collects from the Company a gross receipts tax, occupation tax, license tax, permit fee, franchise fee or regulatory fee, such taxes and fees shall, insofar as practicable, be billed pro rata to the Company's Customers receiving service within the territorial limits of such municipality, other political subdivision, local agency of government, or public utility commission.
- 2.10.6. The Company may adjust its rates and charges or impose additional rates and charges on its Customers in order to recover amount it is required by governmental or quasi-governmental authorities to collect from or pay to others in support of statutory or regulatory programs. Examples of such programs include, but are not limited to, the Universal Service Fund, the Primary Interexchange Carrier Charge, and compensation to payphone service providers for use of their payphones to access the Company's services.
- 2.11. Method for Calculation of Airline Mileage
- 2.11.1. The airline mileage between two cities can be calculated using the Vertical (V) and Horizontal (H) coordinates of the serving wire centers associated with the Company's POP locations. The method for calculating the airline mileage is obtained by reference to AT&T's Tariff F.C.C. No. 10 to the following formula:

the square root of: 
$$\frac{(V1-V2)^2 + (H1-H2)^2}{10}$$

where V1 and H1 correspond to the V&H coordinates of City 1 and V2 and H2 correspond to the V&H coordinates of City 2.

Example:

	<u>V</u>	<u>H</u>
City 1	5004	1406
City 2	5987	3424

the square root of: 
$$\frac{(5004-5987)^2 + (1406-3424)^2}{10}$$

The result is 709.83 miles. Any fractional miles are rounded to the next higher whole number; therefore, the airline mileage for this example is 710 miles.

2.12. Time of Day Rate Periods

2.12.1. Time of Day Rate Periods are determined by the time of day at the location of the Calling station.

The rates shown in Section 4 apply as follows:

Appropriate recurring charges and/or Nonrecurring Charges and other terms and conditions will be developed for the Customer for the provisioning of such arrangements.
